NIKKI'S STORY

Texas native, Nikki Mitchell, loved music, adventure, animals, & her friends. She worked for Waylon Jennings & Jessi Colter for 22 years and eventually served as President of Waylon Jennings Music.

In December of 2010, Nikki was diagnosed with Pancreatic Cancer and battled the disease for 31 months. Her last dream was to save others from the devastation that is this disease.

Nine of her friends, along with Jamey Johnson, Jessi Colter, Shooter Jennings, & Alyssa Bonagura, pledged to fulfill her dream through the Nikki Mitchell Foundation.

OUR MISSION

Nikki Mitchell Foundation is dedicated to providing comfort and relief for those affected by pancreatic cancer, while raising awareness and supporting research that directly and indirectly affects pancreatic patients.
